Practice director / VP – Cloud and digital	For a \$250 – 300 million BFSI focused tech services company. The role will be the practice lead for solutions across the digital spectrum – cloud migration (AWS and Azure), microservices, API, app modernization, content, personalization, user experience & commerce. It will work with the sales & account teams to identify and present proactive proposals for these solutions to grow business. The role will require active travel. The hiring company has a rich portfolio of digital solutions which span cloud, content, commerce, engagement & analytics. Required experience – 10+ in technology architecture / delivery. Recent 4 – 5 years solutioning, architecting, and implementing solutions in cloud, API creation, digital, modernization, content and commerce technologies. Led entire business pursuits from initial planning through proposals, defense & deal closure. Experience with the financial services verticals (banking, capital markets, insurance). KRA's will be solutions identified, proposed and implemented.	Mid Atlantic North East USA	To check fitment Click here
